

PRESS EMBARGO: 8.00 AM (6.00 AM GMT), 24 July 2019

NEW COMMERCIAL VEHICLE REGISTRATIONS EUROPEAN UNION¹ June 2019

Commercial vehicle registrations: +5.8% first half of 2019; +2.8% in June

Total new commercial vehicles

In June 2019, demand for new commercial vehicles in the EU remained positive (+2.8%), marking the sixth consecutive month of growth. The truck and bus segments contributed strongly to this result, while van registrations slowed down last month. With the exception of Spain (-0.7%), all major EU markets recorded solid growth in June. The UK (+18.5%) and Germany (+10.5%) saw the strongest gains last month.

Over the first half of the year, the EU market for commercial vehicles grew by 5.8%, counting 1,358,271 new vehicles in total. Germany led this growth with a 13.9% increase, followed by the United Kingdom (+10.2%), France (+6.9%), Italy (+4.8%) and Spain (+2.6%).

¹ Malta not available

New light commercial vehicles (LCV) up to 3.5t²

Last month, EU demand for vans weakened, down 5.0% compared to one year ago. Light commercial vehicle registrations posted declines in German (-1.4%) and Spanish markets (-4.4%). On the other hand, demand remained positive in the UK (+13.5%) and, albeit more moderately, in Italy (+3.0%) and France (+0.4%).

Six months into the year, registrations of new light commercial vehicles grew by 3.8% despite the slowdown observed in June. Each of the largest EU markets has performed well so far: Germany (+11.7%), the United Kingdom (+8.7%), Italy (+5.9%), France (+5.6%) and Spain (+2.3%).

New heavy commercial vehicles (HCV) of 16t and over³

In June 2019, demand for new heavy trucks grew significantly (+46.9%) compared to June 2018, counting more than 40,000 units registered. The five largest markets all posted double-digit increases, strongly contributing to the region's positive result.

During the first half of 2019, 186,511 heavy trucks were registered across the European Union, up 16.2% compared to the same period one year ago. The UK (+28.2%), Germany (+19.3%) and France (+18.7%) posted the strongest gains, while demand for heavy duty vehicles in the Italian market remained stable.

New medium and heavy commercial vehicles (MHCV) over 3.5t⁴

In June 2019, new truck registrations in the EU posted solid growth (+47%) compared to one year ago, counting 51,162 units sold. All the five major EU markets performed very well, with the UK (+62.1%) and Germany (+44.9%) posting the highest increases.

During the first semester of the year, the EU truck market expanded by 16.5% to reach 228,361 units in total. The United Kingdom (+26.2%), Germany (+21.2%) and France (+17.6%) were the main drivers of this growth. Thanks to the very good performance in June, cumulative results also improved in Spain (+4.4%) and Italy – with registrations now stable compared to a year ago.

New medium and heavy buses & coaches (MHBC) over 3.5t

In June 2019, bus and coach registrations across the European Union substantially increased (+32.2%). The EU's key markets posted mixed results, with the UK (-25.8%) and Italian markets (-3.4%) posting declines, while demand in France (+24.9%), Germany (+20.0%) and Spain (+16.3%) grew significantly.

Over the first half of 2019, demand for new buses and coaches saw a considerable improvement (+9.2%), mainly due to the strong performance of the segment in May and June. The Central European markets (+29.7%) made an important contribution to the region's growth, especially given that two of the five largest EU markets posted declines so far in 2019.
